LEAP FROM AN UNPUBLISHED NOVEL "Againemnon," and his wife, softly, as she opened the door of her husband's study, where the colonel was busily engaged upon his great speech for the coming Grand Army reunion, "Agamemnon, dear, there is a man in the parlor who wishes to see you a moment. He says if I tell you that old Norm, the dead shot of old C company of the old Threety-twoth of the old Onth brigade of the old marchin' division of the old Worst corps, is

on post, you will know him."

The colonel, who was carefully reconnoitering down the "blc" column of the dictionary to ascertain the proper spelling of bichewni-nous, lost his place and was irritated. "By all the gods that fought at Cohoes, or

some other place up that way, I can't be bothered by every duffer that served in the United States army. I don't know him; I never heard of such a man; I never served in such cases: so the decision is liable to be o that corps. That fellow was a deserter, any ruled at any time after a successor is how: I courtmartialed him myself: there was he wants to borrow money of me. I'll go down and fire him out. I've had enough of this; I'll settle him once for all, the lazy loafer, with nothing better to do than bother busy people who don't want to see him. Where is the tramp! Oh! Well! well! well! Old Norm! If I ain't glad to see you! I was write to you. I don't know any man in the old fighting Threety-twoth I'd wather see than you. No, you don't have to go, neither; you're goin' to stay to dinner; put down that hat; some of the boys'll be up this evening. I expect. Say, do you remember that time on at Fort Slaughter when you and me"-The remaining chapters of this interesting novelette will not be published here, but if you want to risk a little money you can get a bet of several thousand dollars and twenty cents that at least a dozen subscribers of The Eagle know all the other chapters by heart.

Sir Isaac Newton, of Newton Centre, Mass., was one of the greatest thinkers that ever carried a thinker in his bootleg. Whatever be saw he endeavored to find out a cause for it. But as he was thinking all the time he didn't see a great deal. One day, as he was sitting in the garden, olding up his thinker, be now an apple fall from a tree. Most men would have supposed that it fell of its own accord, but Sir Isaac had been a boy himself long before founding the theological seminary which perpetuates his name, which, by the way, is a very easy one to spell. He at once began to wonder what made the apple fall; some foolish peoplesay that he windered why it didn't fall up instead of down, but that is men talk to him of working eight and nine

LEARNING TO THINK

(pronounced awfter) much thought and study upon the subject, he discovered the cause; he noticed that apples were more dis-posed to fall down after school was dismissed than during study hours. So the next time to the garden he lay low, and when the apple fell be held his breath until the There is a wide difference, therefore, between came swiftly over the fence to pick up the effect. Sir Isaac collared the boy, for it was be, and taught him how easily pain might be produced by the rapid impingement of a common apple switch upon exposed or only partially protected portions of the hu-man form divine. He illustrated his theory with a few simple experiments such as a boy of ordinary intelligence could easily compre-bend. This valuable discovery of Sir Isaac's has been a great boon to grown up humanity.

It is now universally known that apples are more apt to fall when there are a few boys at large in the vicinity than at any other time, and that apples will fall for a boy when they might have defled the laws of gravitation for anths longer. This sublime fact teaches us that modifications that are at first artificial are rendered spontaneous by heredity This incident of the apple tree, however, had one bad effect upon Sir Isanc. K led

him to bate boys, and he devoted much of his time to making life a burden to them. With this revengeful object in view he in-sented the attraction of gravitation, and by a joint resolution of congress, which he easily aplished by persuading the members of the house that there was a big appropriation in it, he got it established as a fundamental law of nature, with jurisdiction over the tides, the seasons and the movements of the nets, and many other things which boys have since been compelled to learn. So it is that whenever a boy sees an apple he thinks of Sir Isaac Newton first, and then he thinks of some way to get the apple, and by and by be wonders if he can find the pain killer in the dark, and then be thinks how awful it would be to die there, all alone, in the night, and then he thinks if he lives till morning he vill give the rest of his apples to his little brother, and thus you see quite a train of thought is awakened in the boy's mind by Bir Isaac's great discovery.

Bir Isaac never took out a patent on his dis covery, but the Bell Telephone company claims that the principle is covered by their invention and the patents relating thereto, and if the courts sustain this claim, as they probably will every time a man picks up anything that has dropped down, he will have to pay the telephone company a royalty, and every time he has anything to do with the telephone company he will drop. with the telephone company he will drop

VINGINIA'S VEST.

A Plain Statement of the Facts in the Case.

[Special Correspondence]
Washington, July 4.—Sir Edward
hornton, formerly British minister to the United States, and very recently a financial from the British bondholders to the tate of Virginia, has gone home in a rather bad humor, after pointedly intenating that be would make the state debt of Virginia an international question. There is only a bare possibility that the United States will take any action regarding the debt of a state, for getting in debt and paying, or failing to pay, is one of the few functions on which all political parties have agreed to the most extreme doctrine of states' rights; but as the division of old Virginia during the war out the debt

of that state on a somewhat different footing from that of other states, and at least o

Jan 1, 1861, Virginia (then including the Jan 1, 1861, Verginia (then including the present West Verginia) owed \$83,348,141; With a varid or two of under jass a layin on our throats; with pantaloons a foot too short it's pretty hard, I swear hard, I swear hats, and haysesd in our ward in a light hearted way, and my spirits turn of prosperity and full revenues. The original debt was validly contracted in constructing valuable improvements, but at there You'd be madder than old Harry if we didn't had been some extravagance between 1865 stars at them.
and 1870, and as West Virginia had withdrawn with her share of the improvements, a question arose as to how much the old state honestly owed. Virginia, therefore, agreed to assume two thirds of the debt as it stood in 1870, and the funding act of March 30, was in 180, and the funding act of March 20, Who steer as into bonce games, where we only 1871, into thirty-four year bonds bearing 6 get the kinch per cent, interest, "coupens receivable for all put if you think we shirt reveneed in quite debts and demands due the state." The bondholders hastened to refund on this basis, and nearly two thirds of the amount assumed had been funded when, on March 7, 1872, the legislature reported the clause making the ons legal tender to the state for taxes. would so far reduce the state's cash receipts as to close the public schools, and on this We jain 'en into some rooms about the size of ground the colored voters unanimously, many whites with them, supported the policy of coupsu repeal.* The bondholders could neither We give you every one of them we don't believe years; so on March 28, 1879, the legislature passed the "ten-forty act," to the effect that friend you're wrong:

We give you every one of them we don't believe him her. I have been I saw him lean back with dreamy eyes, comptying that flack into his friend you're wrong:

There isn't are hantle; che You're wrong; my dreamy eyes, comptying that flack into his countenance. I knew trouble was bruin. the matured comous might be refunded at Our beariers and measures, and they find the result in the operation of the sportsman all might leng than the same than the same painful to a true sportsman than to sit for lendy bears on an uncurshoused than to sat for lendy to sat for lendy bears on an uncurshoused than to sat for lendy to sat f ten years, the coupons to be again receivable taxes. This is the noted "Riddelberger act," drawn by the senator of that name. The bondholders generally refused this offer, and when some \$8,000,000 had been refunded under it, the legislature, in Februnned under it, the legislature, in Feb-ruary, 1882, and November, 1884, again changed the terms, "scaled down" a small part of the debt and again pro-vided for funding the remainder, adding a stringent clause that those who did not refund under this act before a certain date should be without a remedy. The bondholders then made a test case on the coupons in the Federal courts, and the supreme court of the United States decided, five justices to four, that officials must receive the coupons for all taxes and demands due the state. The four dimenting judges beld that the Federal court had no jurisdiction, as the Eleventh amendment to the constitution forbade it to act in such case; so the decision is liable to be overpointed to the late Justice Woods. And in busy; tell him I'm out of town; tell him I'm dead; send him away. Here, I'll go down and bounce the beggar myself; I'll bet \$1,000 have matured to the amount of \$2,500,000 nearly enough to keep all cash out of the treasury for two years or more-but Virginians as yet have not availed themselves very largely of this cheap way of paying taxes.

The total of Virginia's property assessment in 1885 was \$547,767,765, and the tax Old Norm! If I ain't glad to see you! I was skin' some of the old boys only yesterday if the year of the old boys only yesterday if they knew where you were; I was goin' to twice the assessment. Moreover the tend ney in Virginia, as in many other places at pres ent, is to lay nearly all taxes on land; for of the above total assessment only \$54,811,067 was on personals, and as there are at least 1,600,000 people in the state this would be less than \$50 per capita in personals, a self evident absurdity. Since the decision the state has sought to protect itself in various ways against a flood of coupons into the treasury; but it is now believed for at any rate hoped in Virginia) that when the new justice is ap-States will be five to four the other way And this is indeed almost certain to be the case. Such was the condition when Sir Ed-ward Thornton appealed to the state, and such it remains; so there is much talk of an appeal to the British government to do some-thing at Washington. Great Britoin has enforced the rights of her bondholders in Peru, Egypt and elsewhere, but that sort of a performance would not do here. Negotiation and discussion may anduce the general government to help Virginia, and then again, and more likely, they may not.

J. B. PARKE.

all rubbish. Sir Isaac was no fool if he was hours a day, masmuch as he himself has a philosopher, and he knew that everthing worked from twelve to seventeen hours a day falls down except a wig, and that false hair. I have heard this kind of talk all my life and don't think it is fair as against the working men. The work of Mr. Hewitt has been solely directed to his own interest There was inspiration behind it. That of the ordinary toiler is a weary grind from which he can hope to derive but a passing benefit. the two cases. And another thing. If in working as he has Mr. Hewitt has violated the laws of health. I fail to see how his industry is praiseworthy. And the same is true if his close application has caused him to neglect his social duties and the civilizing amenities of life. Temperance is a good thing in regard to work as well as in the matter of drink or anything else. And the gospel of overwork, if it were generally adopted, would work almost as much injury in the long run as a gospel of idleness.—Washing-ton Hatchet.

Lincoln Stories.

A public man, with the reputation of telling good humorous stories, is made to father all sorts of yarns, good, bad and indifferent. That was President Lincoln's lot. He was father to so many poor stories, that many people doubted if he was really the author of the good ones attributed to him. Among these doubters was Gen. Logan, and his skepticism continued until be came into pernal contact with the genial humorist,

Gen Grant sent Logan from the western partment to Washington, with disputches to be delivered to the president in person. Logan reached the capital late on Saturday night, and early on Sunday morning called at the White House.

The servant said that it was against the rules for any one to see the president on Sun-
